

If the person on the other end was God, would you take the call?

How would you like to receive a personal phone call from God? Just between the two of you? Where he talks to you about the deepest needs in your life right now? And he tells you what life is really all about? The Bible is full of messages from God that he wants you to hear. It's not just historical, showing you Jesus' life and words, but God has a way of speaking to you today through it. If you'd like to explore it with others, please join us. If you want to listen on your own, read the section called "John." It's for you.
