

# If it came from God, would you want to read it?

How would you like to receive a personal letter from God? Just between the two of you? Where he talks to you about the deepest needs in your life right now? And he explains to you what life is really all about? The Bible is a message, a letter, from God to you. It's not just historical, showing you Jesus' life and words, but God has a way of speaking to you today through it. Try it for yourself. Read the section called "John." And if you'd like to explore it with others, please join us. (We'll have a letter waiting here for you.)
